It is cheesed with power and the morality of which it
goes mad
A lot of people became dogs having tied to the chain
Your happy there?

I want to be enjoying the life though it will knock
against a high wall hereafter
I'm already dead however I was saved with the rock

I swore I at that time. I will walk life that shines highest
There is no fear. It gets it over though there is a painful
day too
Now let's go. The wing expands and goes to look for
freedom and the glory
The world that extends to the place waits surely for you

odoranai ka? Real Cinderella kizu darake no GARASU
no MAACHIN de

Hey God! Are you ready?

kikasete yo "bodies"
zecchou wo oshiete yaru yo tonight
hizumi wo agete
hibiki kasetekure tonight
dou ni demo shitekure
kurui dashita yoru ni [DO LUCK] yori mo amai Fuck'n
roll buchikondekure
