Hey man, the sun rises in horizons

In a new dimension of time

The clock ticks like a pulsar drop beat

Our planet is out of its orbit

[Ref:]

Our journey starts as we leave our planet,

A forth dimension, an eclipse of time

Let the planet rest in cosmic sleep

As we crown us kings in a power stream.

Sucked up in the power vacuum

Loaded in negative energy,

The fourth dimension is our home

And the we black sun that we now obey.

[Ref:]

Our journey starts as we leave our planet,

A forth dimension, an eclipse of time

Let the planet rest in cosmic sleep

As we crown us kings in a power stream.

Vivid void, vivid void.....
