"Strange Love"

Always afraid to leave what's familiar
Don't stop to think
Not for a second
Always hesitant to open the door
For new emotions
Rushing to shore

Life's tragedies won't keep me
I'll walk the long road
We all crave that love
We all have that desire
Don't stifle your emotions
This strange strange love
Keeps calling me

Always harder to see through temptation
(to see through temptation)
Don't wanna wait
Not for a minute
(Not for a minute)
Always wanting to have something more
(To have something more)
These new emotions
(New emotions)
Falling away away away
(Falling away)
That these emotions are life
That these emotions are life

Life's tragedies won't keep me
I'll walk the long road
We all crave that love
We all have that desire
Don't stifle your emotions
This strange strange love
Keeps calling me
