Oh I'm on my own  
I danced to the traffic  
You know that, you've been there  
And oh just out of me  
I'm here, I scream  
I need to renew  
I start with my shoes  
I buy some new high  
When I fall off I cry  
When you follow you die

Oh I could be you  
How much of you  
How much of you is true?  
Sometimes I dribble ( ? )  
How happy we could be  
And oh I'm (to? ) all three  
I double myself  
I trouble myself  
Love, love.  
Love in the middle of the fire fight  
Love in the middle of the fire fight  
Love in the middle of the fire fight  
Love in the middle of the fire fight  
Love, love, love.

Everybody's waiting  
Everybody's something  
Plastic stress  
Love  
Everybody's waiting  
Everybody's something  
Plastic stress  
I double myself  
I trouble myself  
I double myself  
I trouble myself  
Plastic stress
