Your love is like a lifeline
Your love is like a lifeline, baby
Your love is like a lifeline
Baby won't you rescue me

I'm like a mountain without a valley
I'm like a lock without a key
I'm like a train ain't got no engine
Baby you're my driving wheel

Like a smoker needs tobacco
Like a drunkard needs his wine
Like a junkie needs the needle
I need your sweet love all the time

I can't build a house on water
I can't sail a ship on land
I can't live without your loving
I wanna hold your hand
