"Power Of Love"

Visit "[Power Of Love](#)" on MotoLyrics.com

Let's talk about love
Spelled l-o-v-e
Just a four-letter word
Such a sweet mystery
Sometimes I wonder
Yes, I wonder about the power of love

Love is like music
Sweet sounds in your ears
Sometimes a sad song
Moves you to tears
Sometimes I wonder
Yes, I wonder about the power of love

Love can move a mountain, love can tear down a wall
Love can uplift you, make you stumble and fall
Gotta learn how to take, gotta learn how to give
Love and be loved, live and let live

Love is a baby
To nurture and hold
Without warmth and affection
Love will grow cold
Sometimes I wonder
Yes I wonder about the power of love

Love can move a mountain, love can tear down a wall
Love can uplift you, make you stumble and fall
Gotta learn how to take, gotta learn how to give
Love and be loved, live and let live

Love can move a mountain, love can tear down a wall
Love can uplift you, make you stumble and fall
Gotta learn how to take, gotta learn how to give
Love and be loved, live and let live

Love and be loved, live and let live
Love and be loved, live and let live
That's the power of love
