Sun lights up the day time  
You light up my life  
The hand that calls you forward  
Is the hand that leaves me behind

And I stand on the ocean shore  
Like an old black and white movie  
Love is [Incomprehensible], love is lost, again tonight

Hold me, hold me tonight  
Hold me, hold me tonight

You've got a book like this  
To keep me alive  
And if it's not a rainy day  
You simply don't go outside

And you're tired of everything  
All of the girls and the boys  
And you're tired of everything  
All of your precious toys

Hold me, hold me tonight  
Hold me, hold me tonight

Sun lights up the daytime  
You light up my life  
The hand that calls you forward  
Is the hand, that leaves me behind

Hold me, hold me tonight  
Hold me, hold me tonight
