Stay awake, I'm missing away
But I feel your vibration-'soyo-kaze'
Keep smiling, everything is fine
All my worries melt to the sky and gone

Take me high (I want you to)
I'm dreaming, you take me down to earth

Imagine the sunset sky, the warm desert waves
The breeze blows, ooh I'm close to you
You're kissing me, I'm here embrace you here in my
heart

I'm crazy for you
I'm so into you

Distance so far away,
Our minds connecting believe in you
No fear just the light up ahead
Living vibrating into harmony

Feel the warmth
The sunshine surrounding paradise

The stars are moving you, The lights shine for me
All the colors spiral down on me
World goes round over and over around and again

Blue breeze blows from youã€€
I'm so close to you

Imagine the sunset sky, the warm desert waves
The breeze blows, ooh I'm close to you
You're kissing me, I'm here embrace you here in my
heart

The stars are moving you, The lights shine for me
All the colors spiral down on me
World goes round over and over around and again

Blue breeze blows from youã€€
I'm so close to you
