

Terri Hendrix "Consider Me"

Visit "[Consider Me](#)" on MotoLyrics.com

Do I kiss you like you need to be kissed?
Miss you like you need to be missed?
If I do I need you to consider me
If it's all about you baby let me go
Youve been around me long enough to know
I need you to
Consider me
I hold you like I need you to hold me
I know what that's worth
For the tide shall take back those not grounded
Faithfully to this earth
I call you like I need you to call me
I do what I say
I show up on time
You back out on me every day
Every single day
We go around and around again
We return where we begin
If the opposite of what you say is true
What am I to you?
