"Prayer For My Friends"

Visit "[Prayer For My Friends](#)" on MotoLyrics.com

Im taking a moment to pray for my friends
A handful of people on whom I depend
Our pathways are different
But I love them no less
Im hoping their sorrows you'll mend
Tonight I pray for my friends
When I don't know the answers
And search for the truth
And hope that my judgment
Will carry me through
Im so grateful for the people I have in my life
They help me to do what is right
They help me to do what is right
There are people Ive loved
That Ive lost along the way
Weve drifted apart
Or they've been called away
I hold them so close
In my heart here tonight
They're dear to my heart for all time
They're dear to my heart for all time
