The fact is  
I can't get up off my ass  
I had a head-on with a thought  
I want to catch what can't be caught  
So give it a rest  
And I'll do what's best  
Right or wrong  
Don't rush me  
Im coming along  
The fact is  
Life is expensive  
Ive paid dues from here to Mars  
Each leap of faith has left it's scars  
Ive been who I am  
Ive been who Im not  
Both have led me to this place  
To catch what can't be caught  
I did what they said  
I did what you said too  
Both have led me to find  
My own point of view  
Right or wrong  
The fact is  
Im comin along  
The fact is  
We go head to head  
And heart to heart  
And Im holding it together  
While Im falling apart  
So lets give it a rest  
Ill do what's best  
Right or wrong  
Don't rush me  
Im coming along  
The fact is  
Im coming along
