

Gentle Waves, The

"Let The Good Times Begin"

Visit "[Let The Good Times Begin](#)" on MotoLyrics.com

Oh, loneliness
Lonely times we're spending
Life made in dreams
Lost in sleep descending
If all we see is all to believe
Then let the music play
Let's not think of tomorrow

Friends that I know
Knew that I was searching
Falling in love
But it wasn't working
Paul said "What we see is solely chemistry"
So let the music play
Let's not think of tomorrow

Let's pledge a year to the stars
And nighttime
Safe from the day
There is life without time
And when light draws near we'll disappear
The way that dreamers do
In sleep intoxicating

Oh, loneliness
Lonely times we're spending
Life made in dreams
Lost in sleep descending
If all we see is all to believe
Then Billy bring your gin
Let the good times begin
