The time has finally come,  
We can shape our destiny.  
Together we will have the strength to be...  
We share a common bond  
With all humanity.  
We can't wait for tomorrow...  
(Chorus) The future is now,  
There's no better time to get in line.  
The future is here,  
Today, hey.  
The future is now,  
Let's stand up and fight, we know it's right.  
Nothing will stand in our way.  
Like a beacon in the night,  
The truth is shining on.  
There's no need for us to be afraid.  
We can't give up the fight,  
We have to carry on.  
We can't put off till tomorrow  
What we can do today.  
(Chorus)

We have got to understand,

The future's in our hands.

(Chorus)

The future is now... The future is now
