"Not This Time"

Visit "[Not This Time](#)" on MotoLyrics.com

Too long we let this all fall apart
Too long we believed in those with no heart
Too long fake fools we let them have their say
No more will you disgrace my everything

Not this time
Not this time
No more
Not this time

Too long values we let them blend and fade
Too long our truths they've gone so astray
Too long I believed you and I were one in the same
No more will you deface my only name

Not this time
Not this time
No more
Not this time

This time is my time
And this time is our time
Those who struggle
The ones with sight
Come from the heart and sacrifice
We are so alive
This is our time
