"Spit My Rage"

Don't forget I know where you come from
I watched it all, your every change
From nothing to something so fast
You nevre had a chance to learn a thing
And there's so many just like you
And it's always the same
Forever ends before it began
And now it's yourself that you hate
Spit my rage
In your face
Spit my rage

And those so quick to judge
With a mouthful of shit you feed to everyone
Lost in contradiction
Now it's yourself you can't live with

Spit my rage
In your face
Spit my rage

Cut back down to size
Lost in your own lies
I'll spit - spit my fucking rage
In your face

Spit my rage
In your face
