There's nothing wrong

With tradition

But tell me where it says

Not to follow our hearts

That's why so many

Of us are so Konfused

And will never live

Up to your rules

[CHORUS:]

My religion doesn't hate

It'll never turn you away

It always understands

My religion won't condemn

Always lends a healing hand

It's love

My religion's love

All it takes is to be willing

To sakrifice for

Someone who is in need

Then we can begin

To heal again

And love will

Sweep the land

[Repeat chorus]

My religion

My religion

Love

My, my religion

My religion

It's love

That's why so many

Of us are so Konfused

And will never live

Up to your rules

[Repeat chorus twice]

My religion's love

Oh, yes, my religion's love,

Oh, yes my realigon's love!!!
