"When You Hurt"

Visit "[When You Hurt](#)" on MotoLyrics.com

I desire you for you

to understand

i wanna be there when

you need a friend

let me be the one

you cry to

i know that i can truly

make you happy

*Chorus cuz when you hurt you know i hurt just as much
as you do

and when you hurt you know i hurt with you

i hurt with you

don't believe all the things

people say

about me cause they

will tear us apart

i just wanna be with you

so that we walk together

for worse or for better

i know that we can make it

*Chorus 2x

you gotta believe

put your trust

in me

all it takes is faith

i will help you believe

(i will help you believe)

*Chorus 2x

when you came into my life

i was so young

but not that it was your fault

but things have changed

it's time for you to know

just how i feel

i wish that i

had something else to say

but that would be a lie

now i realize

*Chorus

half of my heart is more than none of my love

but less than what you want

what you want

half of my heart is more than nothing at all

but that's just not

it's just not enough for love

hope you understand

i never meant hurt

you in any way

but still i need to get this off my chest

please listen to me

i wish the best that life has for you

but it just can't be with me

i'm so sorry

*Chorus

now i

know i promised you

to never leave

but how can i see it through

if it's not in me

*Chorus 2x
