Staring at the street again
Stormy weather
Like the clouds before the break to rain
Through my head.
Images I've read
Here I am
Watching my reflection in my face
Only you can make me wonder
I don't want to cross and I remember
It's either now or never
We're made to be together
Let's make it last tonight
Memories of mad desire
Hoping that this love will last forever
It's either now or never
We're made to stay together
Let's make it last tonight
Mad desire
Burning through the night
Mad desire
Dancing in the night
To the beat, to the beat...
Tried to call you
Phone was off the hook again
Passing hours
Staring through a cold and windy day
In my mind
Images I find
Here I am
Waiting for the moment you appear
Only you can make me wonder
I don't want to cross and I remember
It's either now or never
We're made to be together
Let's make it last tonight
Memories of mad desire
Hoping that this love will last forever
It's either now or never
We're made to stay together
Let's make it last tonight
Mad desire

Burning through the night
Mad desire
Dancing in the night
To the beat to the beat...
On the corner
Staring at the street again
Stormy weather
Like the clouds before the break to rain
Through my head.

Only you can make me wonder
I don't want to cross and I remember
