On the streets of New York  
On the streets of New York  
I was standin' by the Hydrin watchin' time fly by  
Me and Crazy Lou, Tony Tuibe with them brown eyes  
Conversing 'bout nothin' just watchin' time fly  
Nothin' to do man except be with the crews and  
That's when I see the moon and the stars align  
I talkin' 'bout when she walked on by  
I thought I saw Heaven, well

I'm just givin' it up for my baby  
Givin' it up for my darlin'  
Givin' it up for my baby  
I'm thanking God that I found my darlin'

Make ya say well, well  
Well, well, well  
Hey, we fell in love  
On the streets of New York  
On the streets of New York

We make ya say well, well  
Well, well, well  
Hey, we fell in love  
On the streets of New York  
On the streets of New York

Now, If you wanna be my baby, darlin'  
All you gotta do is call and I'll come runnin', well  
Because all I live to do is be the one he meant for you  
And what you want me to be I can be that honey, well

I'm just givin' it up for my baby  
Givin' it up for my darlin'  
Givin' it up for my baby  
I'm thanking God that I found my darlin'

You see I'm twenty one sittin' on them twenty three's so  
I  
Guess I can why a dude like you would like me I got a  
Box of Duchess and a whole lot of Weed so why don't  
You and your dogs come chill with me and my bees it's

really?  
Nice to meet you see my name is Remi  
But if it wasn't then I bet that they would call me Ice Tea  
Because see it's all frozen and then we both rolling so  
Start rolling so we can start rolling tall  
I'm the type to put your trust in  
And I got a big truck that we can crush in  
And see I'm not scared to have a one night stand  
'Cause after one night guaranteed you're gonna wanna  
be my man

Make ya say well, well  
Well, well, well  
Hey, we fell in love  
On the streets of New York  
On the streets of New York

We Make ya say well, well  
Well, well, well  
Hey, we fell in love  
On the streets of New York  
On the streets of New York

On the streets of New York  
On the streets of New York  
On the streets of New York  
On the streets of New York
