In the past, she was against children  
She saw no reason  
for more babies in this world  
I said: "You're right",  
cause I thought about the money  
But now I see her belly  
and I'm asking myself  
"What the hell is this about?"  
I think she's doing this  
cause she's bored or she's afraid  
that I will disappear some day  
Without a baby, her life  
makes no sense she thinks  
And her belly becomes fatter,  
and I'm asking myself  
"What the hell is this ?"  
Oh Oh Oh it hurts,  
when I see you pregnant in the streets.  
Oh Oh Oh it hurts,  
when I see you walking  
with a baby carriage  
I remember her saying  
that there are to many people  
on this earth  
because population exploded  
At this time she was against children  
but now I see her belly  
and I'm asking her  
"What the hell is that about !!?"
