Do you like it spicy or do you like it hot
you can have a little or a lot.
That's all the conversation,
at dinner-time we had
I think when this over I'll be glad.

Do you mind if I don't mind cause you don't mind at all,

since we got together, years were passing by,
relationship became a lame routine,
love means killing time now,
words nothing at all,
your food's my only passion, nothing more

Do you mind if I don't mind cause you don't mind at all,
