### "The Wonder Of Your Love"

Visit "[The Wonder Of Your Love](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Calling out all over the world for love  
I was calling out all over the world for love  
Then you came along when I was so lonely  
Now I'm in clover, my lonely days are over  
It's the wonder of your love, your love  
Your love, sweet lovin', the wonder of your love

When you held me close, held me close & kissed me  
Lightning flashed o'er the thunder that roared  
It's the wonder of your love, your love  
Your love, sweet lovin', the wonder of your love

Your love is brighter than the stars  
The moon & the sun that shines above me  
You took your fingertips & pressed them upon my lips  
& said "Shhhh. Darling, don't talk; just love me"  
& after all is said & done, if they don't believe me  
You'll have but to hold them, then they'll say I told them  
about  
(repeat & fade):  
The wonder of your love, your love  
Your love, sweet lovin', baby it's the wonder of your  
love
