("Doo doo doo" scat singing)

What makes my heart turn upside down
& my head goes spinning (spinning, spinning) round &
round?

It only happens when I'm with you
We-oo we-oo we-oo

What makes me count the days gone by
& never (never, never) keep a sigh?
It only happens when I'm with you

As time goes by, I tell myself that I
Am living in a wonderland
& I can't seem to understand

& when the tears fall from my eyes
& I (I, I) realize
It only happens when I'm with you
Oh yeah, it only happens when I'm with you
