Center is where I see myself  
In the beginning  
Im sitting in the middle  
of a crowded room  
Nobody hears me  
Trying to reach out  
Just trying to scream out  
Im so pathetic is how I see myself  
Im just a joke  
Im running out this life  
People tell me not to waste it  
But how can I taste it  
When I never lived  
When I never loved  
When I never lied

Im just a stain  
Im trying to make my mark  
On a spot thats been dark  
for a long time  
Been a long time since a panic  
Broken down a systematic life  
that God gave me.  
So try to save my faith  
thats going out the window  
That Im looking down from  
One more step and Ill be  
on the ground from a sinner  
Try to make a true believer  
Well, ho, I never was

Youll probably run and hide

Life reality hits me in the stomach  
Aches like a fist in my mouth  
I should have said nothing  
To make everything fall apart  
n my face  
Well youre the one whos crying  
So try to see the world from  
the flipside

Running out of line with no one  
ever watching my back  
Ah, cold mother fucker  
Never seem to realize  
Im not your wanna be

Youll probably run and hide

Center is where I see myself  
In the beginning  
Im sitting in the middle  
of a crowded room  
Nobody hears me  
Trying to reach out  
Just trying to scream out  
Im so pathetic is how I see myself  
Im just a joke  
Im running out this life  
People tell me not to waste it  
But how can I taste it  
When I never lived or fucking lied
