I think I'm addicted (addicted).

Gotta have it every day.

I think I'm addicted (addicted).

Diggin' up what I threw away.

My body is a shell.

A broken empty shell.

A chemical well.

A little private hell.

I can't take this lying down.

I can't handle this waitin' around.

Karl Wallenda said it right.

Walkin' a wire is the only life.

I think I'm addicted (addicted).

I got an insatiable need.

I think I'm addicted (addicted).

Finally it happened to me.

The skeleton trees

Remind me of me.

They've got no leaves

To make the air we breathe.

I can't take this lying down.

I can't handle this waitin' around.

Hack another year off my life.

Take my money, take my knife.

I don't wanna die.

I don't wanna die.

Don't watch me cry.

I don't wanna die.

I can't take this lying down.

I can't handle this waitin' around.

Hack another year off my life.

Take my money, take my knife
