[Pigeon John]

yea

yea

haha

uh hah

ripmatic

cmon

uh

It goes

One for the money

Two for the show

Three for my minions who got in the back door

Four for the honey dips

Five for my bros

And death as my breath kept in and no flow

And it's so slow

You see my life don't grow

And my raps only collect daft so-so

It feels every word that I write steals my fate

Losin every single one of my friends today

And its the weight in my mind

A continual war chyme in my head yellin that the past
ain't dead

But it's alive to well with many stories to tell

Exiting one cell only to a new jail

Destined to fail it seems

And my positivity is trapped in dreams

But I gotta let it shine to affect my team

I can't go back, gotta press on back

Yo

[CHORUS]

life goes on

No matter if your life is tattered

And you can't fix what went wrong

Life goes on

Your battered and your life is scattered

You're a hook in your own theme song

Life goes on

You're a fighter but the grip is tighter

And you know that you can't stand long

Life goes on
Yours only get brighter
Life goes on
Yours only get brighter
Life goes on

[Abstract Rude]

If ever you're hungry, (you) should never feel lonely
If god is with you
If I go know that I will make a return
Give me frankincense myrrh, his ashes in the urn
But learn life goes on
Chant the psalm, sing solomon songs
All of them troubles be gone
We life on with this
I'm sick as rhyme kickin consciousness
And time's slippin, that's why I'm takin risks
It's us prosecuted without cause
The long arm always chases an outlaw
Who did nothing to noone
They just don't understand who he is (is) where he
comes from
But I know
When you're playin their game
Stuck on this airplane
You'll always be fair game
Survival
You're liable to go nuts, but still gotta hold up
I know it gets though, believe

[CHORUS]

Scratching

The truth is told, the youth can grow
Live for life and love livin for kicks
The truth is told, the youth can grow
break bread at the table of life and live truthfully
the truth is told, the youth can grow
Live for lifeand love livin for kicks
the truth is told, the youth can grow

[CHORUS]

Humming to fade out
