[40 Glocc] I move on my instincts and practice by what  
I preach A bullet'll make you think, I'm fuller then  
Hennessy When I pull it, I pop it off, popping all at  
your car Smashing off in the dark, through traffic I'm  
what you call A gangsta that break them laws, a  
gangsta that keep it all Hood out in public, sagging,  
showing my drawers When my pistol by my pelvis, this  
ain't just another song It's a muthafucking anthem I got  
my hand up on my balls, smoking on a cancer Fucking  
up my lungs, hitting niggas up like where the fuck you  
from Acting like you strapped, nigga, where the  
fucking gun Niggas quick to make a scene, the scene  
when the cops come So you hit 'em with that beam to  
the spleen and blood you lost Leave 'em sleeping on  
the street, choking on his own blood Just coating this no  
love, this fucking thing know what's up Respect is when  
you see us, so them choppers'll wet you up [Chorus 2x:  
40 Glocc] Dipping on low bros and traffic in slow mo'  
Just me and my pistol, I keep a she under clothes I love  
it just like my kids, treat her just like my bitch Need her,  
she keep a clip, I'm anxious to see her spit [Havoc] I  
get it, how I can get it, but never selling my soul Can  
get it, how I wanna get it, I come the pistol Keep her  
with me, she needy, don't wanna be left alone What's  
the sense to leave her home, fuck around, I'm a  
danger She concealed til a nigga show his ass, I reveal  
her Have you looking down the barrel, like you looking  
in the mirror Have you lying face down, but you hear  
me little clearer Got a little bad news, and guess who  
the bearer? It's her, that bitch, that chrome four fifth  
Your wrist looking blue, I'm on that brisk You next in  
line, you on that list Put that pistol in your mouth, give  
her a big fat kiss When I'm anxious, and dangerous, to  
be around here This here, Eddie Grier, muthafucka, I'm  
near With that shiny bitch, that grimy bitch And best  
believe, yo, she ain't no model bitch [Chorus 2x]
