Here we go

Yeah, yeah

[Verse 1]

You can get popped it's a possibility up in my vicinity

Popping off with that hostile energy

In a hospital where the doctor at em

When adrenalines mixed with an obnoxious
temperament

Honestly I got a monster pistol grip

That nine commence to spit none of y'all exempt from
it

Spit-spit past tense form it, you get stiff from it

Church mass then yo box plummet

I would never let em give it to me I gotta live to be a
hundred and three

Gotta reach my epitome? Or de cease my enemy? And
receive my penalty

[Hook]

Well nigga lay down (lay down, lay down)

I'ma man, man

I ain't running I'ma stand wit my gun in my hands
I got plans and a place to be

Well nigga lay down (lay down, lay down)

I'ma man, man

I ain't running I'ma stand wit my gun in my hands
I got plans and a place to be
Nigga lay down

[Verse 2]

Ain't trying to be cocky with it

But I'm a nigga from the block who did it

Got an honest living ain't trying to see the box or prison

Getting knocked out of my position

Now I got a pot to piss in

Pissed off muh fuckers mouth off bitching

Probably cause he lackin? bitches so his whack
decision's

Get mad at the nigga that's getting em
That's when he see that that's the nigga that's hitting
him
With a rigorous pistol over this ridiculous issue
Dismiss you ?in attempt to? take me out my muh fuckin
temple

[Hook]

[Verse 3]

Niggas get nauseated an artist made it
Had it hard, against odds and emancipated
To them floss big cars and got damn they hate it
To see the lady they dating catering to the latest
Shadiest artist?
Up in my radius get faded wit a plated revolver
Rated me R haters get faded with horror erased, no
fate for tomorrow
All cause he think he hard tough
Got a car-cuss, he was running at the mouth, hush
I would never let em give it to me I gotta live to be a
hundred and three
Gotta reach my epitome? Or decease my enemy? And
receive my penalty
That?ll bet the end of he, trying to cease my entity
It?s fin to be the end of his Identity when I tell em to
