Eyes that penetrate  
heat that denigrates  
lets communicate  
I can hardly wait to get to you,  
and show you baby...

If you want to I can be dirty too,  
I can spin you around,  
Pick you up and go down,  
And if you want to,  
I can be just like you,  
and do the dirty things you do.

You walk into a room with a preciprical boom,  
tight show, close zoom  
And when you move its assumed  
you feel it too  
Don't you baby?

I'm ticking like a fuse,  
Its an itch I gotta scratch,  
10 minutes in a room to get this monkey off my back,  
and any dark space would do,  
just to show you baby...

If you want to I can be dirty too,  
I can spin you around,  
Pick you up and go down,  
And if you want to,  
I can be just like you,  
and do the dirty things you do.
