"Soul To Soul"

Well there's a light coming from a window
And it shines down on the street
Well there's some guy standing on the corner
Singing that good old harmony

Chorus
Soul to Soul
Brother to Brother
All together
Sounds good to me

Repeat

When I turn off the light
Say good-bye to another night
I'm gonna rest my tired head
Oh put my bones away in bed
I'm gonna get on my knees and pray to the Lord
To give me just one more day
Oh Lord Hear my plea
This music means so much to me

Chorus (2 times)

We're singin that good old harmony!
