"Little Things"

I know - some things

Well they don't feel right and I can't sit tight

Still there's some other things they can make you smile

they can make you high ...

Still there's some other things - make you turn your
head

Make you change your direction If you check their
worth

Well they're not too deep and you need some
correction ...

CHORUS

I've got infatuation with the little things

They make me feel good - Why should I feel bad - ooh
...

I've got infatuation with the little things - little things

If you try you could; And then you won't be;

Feelin' that way no more no

Sun rise - moon rise

Well it all seems nice even though it's predictable

Take it - twist it - What's in my head is simply
unrestrictable...

CHORUS - CHORUS (repeat
