You tell me, I've been walking on a railing

Been excelling at failing

That I think wrong, I don't belong

I don't fit, I don't give a shit

Take my guitar and microphone, pour out my fuckin'
soul

Insecurity, I'll strip it down to the bone - Fuck it

I ain't a stranger, just strange

I'll be fine so leave me alone

You can't see the things make

Your happiness go away, well I can

It's all in your head

It's in your head

It's sad but its true

It's inside you

Keep wallowing in your misery

It's all in your head

I know that I'm a weirdo and I'm messed up

And the lord knows that I've fucked up

But I don't need you to point out

Every mistake that I make

I'm sick of all your negatives, something has gotta give

Got me thinking you need to stop overthinking

Brink of losing my mind and going blind

I'll be fine, leave me alone

You can't see the things make

Your happiness go away, well I can

It's all in your head

It's in your head

It's sad but its true

It's inside you

Keep wallowing in your misery

It's all in your head

Why can't you see its you

It's just inside of you

You can't see the things that make

Your happiness go away, well I can

Honestly you're driving me insane, again

Because it's all in your head

It's in your head

Sad but it's true

It's inside you

Someday you'll see why you're unhappy

Someday you'll see that it's not me

It's all in your head

It's just inside of you
