In this house of suffering

I gotta let some joy in

I hear that freedom will win

Oh where oh where can jah love

Be now

My dear, it's here in the underground

Inside the hearts of your own children

In this house of suffering

I spirituallogic grin,

In one way grace is my friend

To conquer doom and sin

And all the nations lying

While all our people crying

And they stop at

Nothing!...nothing!...nothing!

In this house of suffering

Don,t want but just one thing

Got to have my origin

In this house of

Suffering
