No Bother Me

The harder they cum
Harder they fall
One and all

I wanna see you suffa

Never Lay Down
Never say die
Never tap out

I wanna see you suffa

You might win some
But you just lost one
Im a champion

I wanna see you suffa

The harder they cum
Harder they fall
One and all

I drop back and let em have it...

I got a vendetta
I wont stop
I take em down
I get em
One by one
I break em down
I never
Let em up
Cuz, when its on then its on
So put em up
I'm a God
I'm a playa
Know what i mean

I'm on top
I'm a hustla
I got mouths to feed
I'm a born Amerikan
A natural born killa
I'm a rude boy, son
I'm a predator

The harder they cum
Harder they fall
One and all

I wanna see you suffa

Never lay down
Never say die
Never tap out

I wanna see you suffa

You might win some
But you just lost one
I'm a champion

I wanna see you suffa

The harder they come
Harder they fall
One and all

I drop back and let em have it...

The tide is getting higher
You're on your own
I'm moving back to Zion
I'm coming home
And when my job is done
I'll find my place in the sun
And never look back at southern
Babylon

But they keep playin with me like
Every single day
Oh yea, but i got something to put
These haters
In their place

A born Amerikan
A natural born killa
Yea I'm a rude boy, son
I'm a predator

The harder they cum
Harder they fall
One and all

I wanna see you suffa...

Never lay down
Never say die
Never tap out

I wanna see you suffa

You might win some
But you just lost one
I'm a champion

I wanna see you suffa

The harder they cum
Harder they fall
One and all

I drop back and let em have it...

I wanna see you suffa
