

## Heads Talking

### "Paper"

Visit "[Paper](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Hold the paper up to the light

(some rays pass right through)

Expose yourself out there for a minute

(some rays pass right through)

Take a little rest when the rays pass through

Take a little time off when the rays pass through

Go ahead and mis it up...Go ahead and tie it up

In a long distance telephone call

Hold on to that paper

Hold on to that paper

Hold on because it's been taken care of

Hold on to that paper

See if you can fit it on the paper

See if you can get it on the paper

See if you can fit it on the paper

See if you can get it on the paper

Had a love affair but it was only paper

(some rays they pass right through)

Had a lot of fun, could have been a lot better

(some rays they pass right through)

Take a little consideration, take every combination

Take a few weeks off, make it tighter, tighter

But it was never, it was never written down

Still might be a chance that it might work out (if you)

Hold on to that paper

Hold on to that paper

Hold on because it'll be taken care of

Hold on to that paper

Don't think I can fit it on the paper

Don't think I can get it on the paperr

Go ahead and rip up, rip up the paper

Go ahead and tear up, tear up the paper
