Sometimes the world has a load of questions

Seems like the world knows nothing at all

The world is near but it's out of reach

Some people touch it...but they can't hold on.

She is moving to describe the world

Night must fall now-darker, darker.

She has messages for everyone

Night must fall now-darker, darker.

She is moving by remote control

Night must fall now-darker, darker.

Hands that move her are invisible

Night must fall now-darker, darker.

The world has a way of looking at people

Sometimes it seems that the world is wrong

She loves the world, and all the people in it

She shakes 'em up when she start to walk.

She is only party human being

Divine, to define, she is moving to define, so say so, so
say so

She defines the possibilities

Divine, to define, she is moving to define, so say so, so
say so

Holding on for an Eternity

Divine, to define, she is moving to define, so say so, so
say so

Gone...ending without finishing

Divine, to define, she is moving to define, so say so, so
say so

The world moves on a womans hips

The world moves and it swivels and bops

The world moves on a womans hips

The world moves and it bounces and hops

A world of light...she's gonna open our eyes up

A world of light...she's gonna open our eyes up

She's gonna hold/it move/it hold it/move it hold/it move
it hold/

it move it

A world of light...she's gonna open out eyes up

She is moving to describe the world

Night must fall now-darker, darker.

She has messages for everyone

Night must fall now-darker, darker.

She is moving by remote control

Night must fall now-darker, darker.

Hands that move her are invisible

Night must fall now-darker, darker.

Divine, to define, she is moving to define, so say so

Night must fall now-darker, darker.

She...has got to move the world...to move the world...to

move

the world

A world of light...she's gonna open our eyes up

A world of light...she's gonna open our eyes up

She's gonna hold/it move/it hold it/move it hold/it move
it hold/

it move it

A world of light...she's gonna open out eyes up

Wanna define...so say so, so say so

Divine to define, she is moving to define, so say so, so
say so

Night must fall now-darker, darker.

She...has got to move the world...to move the world...to
move

the world
