Visit "[Wherever You Are](#)" on [MotoLyrics.com](http://MotoLyrics.com)

My love it's been such a long long time  
One day I always knew I'd hear from you again  
But I'm sorry to find you're having such hard times  
But you thought of me in your time of need  
So I say,

Build me a road dear, and I will come running  
No matter how long or how hard it may be  
I have a light from your love dear to guide me  
I promise I'll be there whenever you need

Who'd have thought it would ever come to this  
One last letter but no one last kiss  
As the seasons go by, everyday you're on my mind  
babe  
I long one day to be with you  
So I say,

Build me a road dear and I will come running  
No matter how long or how hard it may be

I have a light from your love dear to guide me  
I promise I'll be there whenever you need

You promised me I promised you  
Our love for one another was true  
But somewhere there in time, we went on with our lives  
No we're all so far apart  
Too far to make a start  
Too long to make it end  
I must see you again

Build me a road dear and I will come running  
No matter how long or how hard it may be  
(wherever you are)  
I have a light from your love dear to guide me  
I promise I'll be there whenever you need  
Wherever you are, where ever you are, wherever you  
are, wherever you are, wherever you are..
