blackstar by Georgie Davis  
In the land of make believe  
The characters are bought to grief  
But a friend in need's a friend indeed

It's been said long time ago  
It applies to friend and foe  
A pal like Blackstar's oh so hard to find

The creatures with movable wings to fly  
and glow in the darkest weather  
are coming down here out from night

The mystic warriors of change  
In times when you doubt whether  
With his glowing power sword  
Is Blackstar on your side

Where he comes from no one knows  
It's a mystery where he goes  
'cause He's after bringing joy and good

He transforms from man to beast  
But at night you feel at ease  
He has always been misunderstood

The creatures with movable wings to fly  
and glow in the darkest weather  
are coming down here out from night
