

Heart Restless

"Big Dreams In A Small Town"

Visit "[Big Dreams In A Small Town](#)" on MotoLyrics.com

Rollin' down a dusty road

In my daddy's Ford

I wish that I could feel that way again..

I remember these summer night On the brink of love

You and I made more than plans back then

Big Dreams in a Small town

Eighteen and glory bound

Nothing here to tie us down

Big dreams in a small town

We were gonna try to set the world on fire

We were gonna make it all come true.

We used to say that we couldn't wait to leave this town

That was something we were born to do

Oh ain't it funny how it always seems

That time has a way of changing all your dreams

Big dreams in a small town

Guess it's time to settle down

Don't ya like the way it sounds

You and me in a small town
