Scattered dreams
Silent screams
Deadly smiles
Loneliness for miles

Lies in the air
Life's not fair
Flying through the night
Careful, to stay out of sight

Not knowing what's ahead
Through this cloud that looks like a bed
Flying makes me feel free
Like, I can be what I want to be

(Chorus)
Dreams are all over in are head
Watching us as we lay in bed
They're ready to take action
Awaiting are frightened reaction

Fairy tales
Hope fails
Better to die
Than to ask why

Knight in shiny armor
Not a dirty old farmer
Running through the trees
Loving the warm breeze

Life's a set up
The storm is letting up
But they don't see me
When will I ever be free

Whether life's bad or good
I am always going to be misunderstood
But soon everything will be o.k.
I know I will find a way

(Chorus)

Living dead
Corpses wed
Dead alive
Learn to survive

These dreams are frightening
But soon the dark will be lightening
Night is turning into day
This terror is finally going away

But still the voices in my head
They are ready to kill, they want me dead
My heart won't stop bleeding
Because I know they are succeeding

They make fear from love
They make hate from the light above
They are deadly creatures
With horrible features

(Chorus)

They feed on love, sadness, and hate
To them your hearts the bait
And they have you on a hook
But they should take another look

Because what they don't know
Is that they have met their foe
We are strong
And they are wrong

Flying over an ocean
Walking in slow motion
Swimming in the sea
And knowing we are free

That is are strength and power
With that we can build a tower
We will beat them
Because the war has just began
