### "Anywhere"

Visit "[Anywhere](#)" on MotoLyrics.com

Anywhere has gotta be better than nowhere  
And any place has gotta be better than no place at all  
First they say they'll save you - only to delay you  
From being someone - but you're gonna be someone

Any time has gotta be better than no time  
Anyone has gotta be better than no-one at all  
Only you can save you - never let them break you  
You gotta call it something - it's better than nothing

First they say they'll save you, only to delay you  
From being someone - but you're gonna be someone

Anywhere has gotta be better than nowhere  
And any chance has gotta be better than no chance at  
all  
Only you can save you Never let them break you  
You gotta call it something  
From being someone - but you're gonna be someone  
You're gonna be someone

(Only you can save you)

Your're gonna be someone
