Call a time out, call a time out
Before I put them back in line where is my house
Call a time out, call a time out
Before I put them back in line this is my house

Somebody blow that whistle,
Cause there's young and crazy and I heard he told that
pistol
Fully loaded, they say that he be rollin
These , still be faking but they know that he be holdin
No need for clear eyes but his vision too clear
Even know they try to stop him they must know that this
is here
Crimes try to pull him down like his ankles got and
anchor
But he came up from the ground and them haters be in
danger
What? What you talk about? You can't stand a snitch
His name ain;t rick james, his name's a , bitch
The dirty district in my , like that ,
Don't make me go upside your head in this vip

Call a time out, call a time out
Before I put them back in line where is my house
Call a time out, call a time out
Before I put them back in line this is my house
Ok, it's a flag on a plane
Call a time out, call a time out
Ok, it's a flag on a plane
Call a time out, call a time out

I got LV on my luggage, Hugo on my clothes
Can you smell the aroma you know it's on my stove
Sometimes you find promoters come and show up on
their ,
Then I tell them that's a flag on that motherfucking
paper
Call a timeout before it's war time
Slim what you think this is homie I need all my ,
These suckers ain't , they got me highly agitated
They fabricated the whole industry contaminated

For me I came to stop, go ahead and call the cops
Now only do I rap I trap I really beat the block
The streets they love myself they feel it's going down
You better call a time out or leave it hit the ground

Call a time out, call a time out
Before I put them back in line where is my house
Call a time out, call a time out
Before I put them back in line this is my house
Ok, it's a flag on a plane
Call a time out, call a time out
Ok, it's a flag on a plane
Call a time out, call a time out

If you know somebody frontin and they swear they
keep it ,
That's a flag on a flag, that's a flag on a flag
Homie know that he ain't real when this ourfit faker
That's a flag on a flag, that's a flag on a flag
Girl you busted and disgusted and you think you ,
That's a flag on a flag, that's a flag on a flag
If somebody own you money and don't think they gotta
pay
That's a flag on a flag, that's a flag on a flag

Call a time out, call a time out
Before I put them back in line where is my house
Call a time out, call a time out
Before I put them back in line this is my house
Ok, it's a flag on a plane
Call a time out, call a time out
Ok, it's a flag on a plane
Call a time out, call a time out.
