We all know, seasons come and go  
Here today, then the wind blows them away, hey  
A rainy day's falling down on me  
A rainy day's falling down on me  
A rainy day's falling down on me

Even though all things ... flow  
What do you say, when the tide blows them away, hey  
yea  
A rainy day's falling down on me  
A rainy day's falling down on me  
A rainy day's falling down on me

I wish I could have you back,  
I wish I could have you back,  
I wish I could have you back for one more day  
A rainy day's falling down on me

Lord I know, you helped me find my way  
Hold me closer and wipe my tears away, hey yea  
A rainy day's falling down on me  
A rainy day's falling down on me  
A rainy day's falling down on me

Father on my knees, you know that I believe  
Jesus be near to me and hear me pray  
A rainy day's falling down on me

We all know, seasons come and go  
Here today, then the wind blows them away.
