not like any other king
peace and love to all the world..
living out this Father will before he's on
not like any other king

not like any other man
Jesus was not afraid to make it stand
it could've have the world..but it took his Father hand
not like any other man

Chorus:
Jesus, brought the ..into the town
people layin palms leave down
..and Jesus people would be so
He was worthy on the throat
..only know
not like any other king

not like all the other ones
somehow is worth to spoke to everyone
like a light in the night to show the way back home
not like any other one

Chorus:
Jesus, brought the ..into the town
people layin palms leave down
..and Jesus people would be so
He was worthy on the throat
..only know
not like any other king

Jesus, like a silent..
to the cross some richy ..
they crucify the king
and Jesus ..the gold the .
brought the angels rushin in
but the.. not like any other king
