Living in this town  
shocking where you down  
it's getting harder to pretend  
people pass you by  
never catch you right  
everybody needs a friend  
hold up your hand  
don't be too ground  
look to the sky  
cry out loud

Here come the storm  
he stop the weaves  
he go to Lazarus and ..him from the grave  
he felt you,  
when he bought ashame  
he took it all to lonely God's love could remain

was there once a day  
when this was miles away  
and you will closer than found  
or was it just a dream harder than it seems  
to get your feed back of the ground

Why don't you call, call of his name  
you have a friend and He knows your pain

2 x  
Here come the storm  
he stop the weaves  
he go to Lazarus and ..him from the grave  
he felt you,  
when he bought ashame  
he took it all to lonely God's love could remain

Living in this town  
shocking where you down
