Secrets out unfold
Whispered words be warned
Falling into one, it's you I still believe
Felt, so alive
Wish I could hold
It's already full
So phase me out of your life
It's all, it's all, it's already full

Treat the son our own
Haven't seen him grow
Held hand we lost
It's you I can't recall
Felt, so alive
Wish I could hold
It's already full
So phase me out of your life
It's all, it's all, it's already full

Secrets out unfold
Whispered words be warned
Falling into one, it's you I still believe

And I still believe
All that we couldn't see
And it seems so wrong
But I wish I could
Never will

It's already full
It's already full
It's all, it's all
It's already
FULL
