"Never Ending"

It feels like a lonely day
It seems like a throw away
And everything's a sad reminder
Of the way we could be together
It feels like a lonely day
Never ending, a never-ending day
A never-ending day

There will be, a next time
In my heart, in my mind
I see me, beneath you
Before the truth can seep through
This is so contagious
And every day it changes
There will be, a next time

Shape turns a false display
Hoped for a holiday
A sequel to the memory of her
On the day we layed together
It feels like a lonely day
Never ending, a never-ending day
A never-ending day

There will be, a next time
In my heart, in my mind
I see me, beneath you
Before the truth can seep through
This is so contagious
And every day it changes
There will be, a next time

A never ending, a never-ending day
A never-ending day
