A picture is worth a thousand words  
But not worth the words I need to hear  
I miss you so much that it hurts  
And tonight, I wish you were here with me  
So I could make you see  
And the stars  
They lay across the sky so perfectly  
They remind me of all the times  
We used to sit underneath them  
Those summer nights and fall in love

It's not alright  
It's our last night together  
I won't give up  
I can't let go of you [x2]

Tonight I close my eyes  
And dream that she was still the one  
Laying there beside me  
I'd walk a thousand miles  
I'd swim across the sea  
What do I have to do  
Please just tell me

It's not alright  
It's our last night together  
I won't give up  
I can't let go of you [x2]

GO!

It's not alright  
It's our last night together  
I won't give up  
I can't let go of you [x2]
