Black mascara smudges your face  
You sit in your grassy place  
The grass is oh so greener on the otherside  
But then i would wonder why  
It's never going to be that way  
Cause your gat a pretty face  
Not going to be one of those girls  
Don't want to live in that world  
Does popularity come with a make-up case  
Just think of all the time you waste  
See the sporties get their prizes  
As we hide in the faculties demises  
It's never going to be that way  
Cause your gat a pretty face  
Not going to be one of those girls  
Don't want to live in that world  
It's never going to be that way  
Cause your gat a pretty face  
Not going to be one of those girls  
Don't want to live in that world
