"Live Without It"

Visit "[Live Without It](#)" on MotoLyrics.com

You know that we can mkae things happen;
that is what you say when 'always' comes.
An' I feel what you don't feel its real.
An' that is why we make them understand!
We'll show them we can live without
we'll prove you get through without it.
An' I know about what goes on in there
an' I know better not to sit and stare
too long at what makes the colour blind
you're like the sun but you never shine!
We'll show them we can live without it
we'll prove that you get through without it...
But sometimes it feels so right, it feels so right,
it feels so right
